Product Description

Non-Toxic And Efficient Lunch Storage Bag Container With Lid Convenient And Reliable

Product Description:

Non-Toxic And Efficient Lunch Storage Bag Container With Lid Convenient And Reliable
Silicone Lunch Container

The silicone lunch container is a reusable and leakproof lunch packing container that can easily and conveniently store any and all types of food. Its medium size is great for packing school lunches, work lunches, or any other type of meal. Its rectangular shape is designed to maximize the capacity of the container while maintaining its convenience and portability. The lid ensures that the food is securely stored and won't spill or leak out.

The silicone material of the lunch container is designed to be temperature resistant from -40°C to 230°C and is therefore ideal for both cold and hot food storage. It is also easy to clean and safe to use in both the refrigerator and the microwave. The silicone material is also BPA-free, making it an eco-friendly and safe option for packing food.

The silicone lunch container is an excellent choice for anyone looking for a durable, reusable, leakproof, and temperature resistant food storage solution. It is a great way to store and transport food for school, work, or any other occasion.

Features:

Non-Toxic And Efficient Lunch Storage Bag Container With Lid Convenient And Reliable
